Ten Peachtree Place  
Atlanta, GA 30309  
404-584-4484  
TIMP@southernco.com

Dear Neighbor:

We are pleased to share that Atlanta Gas Light is investing in the natural gas pipeline system serving your area as part of our ongoing efforts to improve our infrastructure. We wanted to let you know about the system improvements and what to expect when work begins.

We will be replacing the gas mains in your immediate area with newer, more advanced pipes as a preventive measure to ensure the ongoing integrity of our system and provide an even safer and more reliable natural gas pipeline system.

Our contractor, Diversified Utility Services, will be replacing portions of the gas lines in your area along University Avenue, Pryor Road and Pulliam Street. Construction will begin in the next 1-2 weeks. A Diversified Utility Services representative, as well as Atlanta Gas Light professionals, will be on-site throughout the construction process should affected property owners have any questions during construction. All contractors on-site will have photo identification. Work will be performed from 9 a.m. to 3 p.m. or permitted hours Monday through Saturday.

Clean up of the job site will be completed as the project progresses. Affected areas will be restored as close as possible to their pre-construction condition, with final restoration and clean-up occurring at project completion.

Project construction will consist of the open cut pipe installation method. Steps will be taken to minimize traffic disruptions during construction. However, in some locations, we may need to temporarily close a lane during construction. Any temporary road or lane closures will be coordinated through the appropriate jurisdiction. Appropriate traffic control measures also will be put in place. Atlanta Gas Light will also work with property owners and managers to ensure that parking lots are accessible during construction or that alternate parking is available.

We are also notifying local public safety officers of our construction plans. As with all our construction projects, safety is our top priority. We will make every effort to minimize inconveniences to property owners along the route.

We thank you in advance for your understanding and patience with this process. If you have any specific questions not addressed in this letter, please contact us at 404-584-3130 or [constructioninformation@southernco.com](mailto:constructioninformation@southernco.com).

If you are a customer, we thank you for choosing environmentally friendly natural gas.

Sincerely,

Atlanta Gas Light
